

MODEL: PL7120 \ PL7220 \ PL7320 \ PL7420 \ PL7520 \ PL7620 \ PL7720

PI7 series Amplifiers, matching with simple and elegant outlook ,has become the exciting mainstream products, which is the essence of concentration and of the first-class technical quality and stability.

► **Wide voltage range,Stable and dependable performance**

65% ~ 130% the extra wide working voltage range design against the relative rated Input supply voltage , so it can easlily cope with the strong voltage fluctuation environment. Meanwhile, power volume gradient circuit more considered the audience feelings. Advanced SMT technology make the performance more stable.

► **Precise and pure quality and wonderful SNR**

Finally, several experiments to eliminate the sound defaults are paid. Consequently, precision and clarity of PL7 series are remarkable. Let alone the ultra-low distortion and super S/N R.

► **Flexible power set**

The unique and flexible power system, PL7, helps with a huge capacity storage. It can be connected with all kinds of speakers. What's more, MA functions well in the circumstances of stereo, single channel and bridge connection models.

► **Designed for the applications of professional equipments,theatres and live amplifying**

The handy 2U-cabinet that makes setting and carrying easier can be fixed on any parts of the rack. The perfect protection circuit makes its self-protected characteristics are as splendid as the aircraft carrier's.

► **Totally intelligent dynamic limiter system and distortion eliminate circuit**

The circuit which power is controlled by dynamic limiter is a patent, assuring the system is working in a permanent safe situation.

► **Patent of earthed technology**

The latest patent of earthed technology that is adapted by the PL7 is able to work without floating switch and minimize the noise no matter what kind the connection is.

► **Always pursuit of the best**

The PL7 that have been studied for years are the optimum products with elaborated performances, which is proved by the sophisticated interior layout.

PI7 series adopts full SMT ,select the top amp. and the most scientific and rational circuit, makes the most perfect sound.

Professional 4-core SPEAKON that is connected to the speaker, the sole bridging 4-core SPEAKON that is supplied specially, the back panel signal and working situation make it more convenient and dependable.

Instant signals , situation of CLIP, working model etc. will be displayed on the independent channel clearly and accurately.

AMPLIFIER
