# SS-1010 & SS-1010R Speaker Selectors

TOA SS-1010 and SS-1010R Speaker Selectors offer the function of selecting speaker zones in a public address system at an affordable price. With the SS-1010 or SS-1010R, up to 10 speaker zones can be selected. In the situation where announcements have to be made to all zones, an All Call/Zone button can be selected to broadcast the message to all areas.

With the SS-1010, which is for 2-wire connection, music or paging zones can be selected by using the hard buttons or remote control switch.

With the SS-1010R, which is for 3-wire connection, any previously selected BGM zones will be muted when paging is done to other zones. The volume control will be override to the maximum volume.

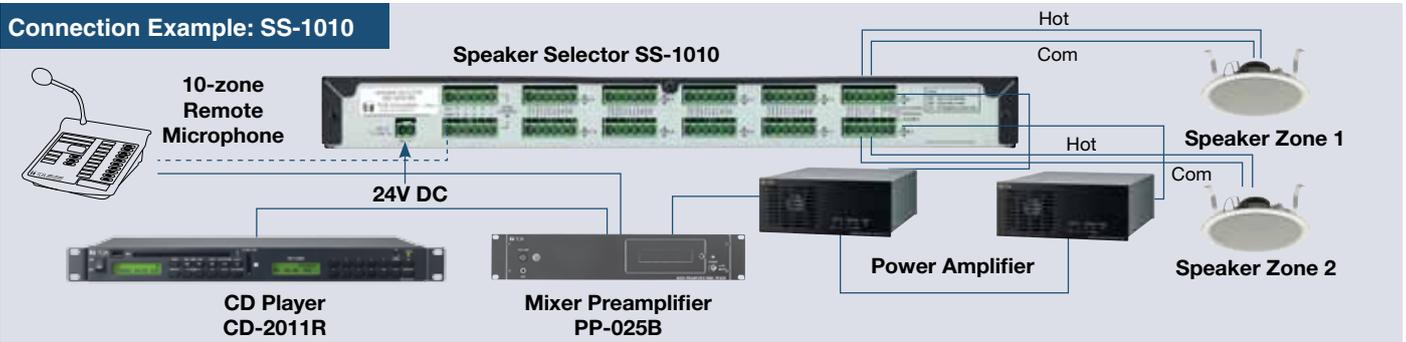

### Features:

- 1U 19" rack size
- 10 zone selectors and 1 all call selector
- Remote control for zone select and all call select
- Expandable to unlimited zones
- Protection for DC input overload and reversed DC polarity installation
